SNOQUALMIE
FISH, FARM, FLOOD
current reality
future preferred reality
BIG BOLD STEPS
drainage
Concerns about
* Salmon recovery
fish vs. farm
CONFLICTING!
buffer issues
regulations
inconsistant
* FLOOD Gates vs FISH
WILD LIFE
encroachment
Concerns about:
* agricultural Viability
* nutrient management
FLOODING
CLIMATE CHANGE
Poor FISH HABITATS
water temp
protect farms upland, too
same agriculture for more traditional FOODS
FISH as FOOD
for NATIVE AMERICANS
Consistency
agencies working together
and flexibility to
compromise
FFF
framework for FFF
thriving profitable farms
CITY
getting foods to consumers
cool water upriver
WQ↑
moo!
FLOOD PADS
flood water managed
involve community and landowners
PROTECT REVETEMENT
RECLAIM farmland
Streams
incentives work!
BUFFERS
forested areas
manage flooding for small cities and towns
yay!
storm water management
RETROFIT
DRAINAGE MAINTAINED
oops!
BMP for POOP and FOOD SAFETY
moo?
methane
$CH_4$
grant money to solve issues across lines
