Sources and notes:
The Groundwater Protection Program (GWPP) monitoring locations are ongoing project and ambient sites with data for 2003. The data for the public water systems, Group A and Group B sites, are reported from WA DOH for the time period of 2002-2003. Remainder of data from KC GIS Database. The data are the maximum reported concentrations of Arsenic for each location.
The information included on this map has been compiled from a variety of sources and is subject to change without notice. King County makes no representations or warranties, express or implied, as to accuracy, completeness, timeliness, or rights to the use of such information. King County shall not be liable for any general, special, indirect, incidental, or consequential damages including, but not limited to, lost revenues or lost profits resulting from the use or misuse of the information contained on this map. Any sale of this map or information on this map is prohibited except by written permission of King County.
