The following information is reproduced from Part 2 of this document:

The Landsburg Reach-9038 parcel is one of six parcels<sup>1</sup> included in a road maintenance agreement for a private road which connects the property to SE 247<sup>th</sup> Street (Agreement is Recording # 199401122007; road created by Recording # 197710270076). The road runs through parcels 2422069112 and 2422069005 before it reaches the King County-owned parcel. The road maintenance agreement states that "Maintenance costs shall be divided equally among each individual property ownership and/or its heirs, successors and assigns...EXCEPT that repair costs caused by above normal use by any one or more ownership(s)...shall be borne by the ensuing user. A simple majority vote of each and every individual property ownership will be required to entail maintenance costs." Votes will be initiated by written notice sent to each owner via certified mail.

At this time, there is only one daily user of the road and King County has made no payment into a road fund (Harig pers. comm. 2003). In 2005, a road maintenance assessment may be made. A road maintenance fund is being established in the name of Elk Meadows Road Maintenance Association. A \$500 payment is due in the summer of 2005. Members of the Road Maintenance Association estimate that maintenance will need to occur every 3 years. (Darcy pers. comm. 2005)

---

<sup>1</sup> The six parcels included in road maintenance agreement are 242206-9017, -9026, -9038, -9110, -9111, -9112 (per information in King County Acquisition Files). Three separate road maintenance agreements were filed between property owners in 1994 (recording numbers 199401122007, -006, and -008), which preceded a 1995 boundary line adjustment which created the current parcel configuration. An illegal road easement was granted to the owner of parcel 2422069073 by the owners of parcels 2422069026 and 2422069017 (Recording #20020607000833). They were not owners of the parcels through which the easement runs (2422069112 and 2422069005), therefore they illegally granted the owner of parcel 2422069073 access on the easement road. The owner of parcel 2422069112 is looking into legalizing this easement at the time of writing. The owner of 2422069073 is making a 2005 contribution to the road maintenance costs.
