

Hello!

Thank you for your interest in the Marymoor outdoor concert volunteer program. Due to the continued success of the volunteer "Marymoor Composter/Recycling Crew"; we will be recruiting for new and returning volunteers for 2014. Crew volunteers will teach concert-goers about their recyclables and compostable materials and will assist them in using appropriate bins at the sorting stations. Volunteers will also sort non-trash materials from other bins and help keep the Marymoor Park concert venue free of litter. This helps to keep a good share of the waste generated at concerts going into the compostable or recyclable stream.

In exchange for their work to safeguard the environment, Recycling Crew volunteers receive free entry and parking to the shows at which they volunteer. Volunteers will be able to watch the show before or after their shift and are able to hear the entire concert.

Concerts are held rain or shine. **Volunteers work in a team and are required to do some lifting and pushing of heavy carts.** Volunteers stand throughout a shift.

*If you would like to be put on the list to be notified when applications for the new season are ready; please let me know.* We advertise as soon as the concert line-up is finalized.

Thank you for your interest.

Sincerely, Laurie

*Laurie Clinton* – Volunteer Program Manager
