

**King County Stormwater Management Program
2009 SWMP Online Survey Summary**

What prompted you to visit this Web site and participate in the survey

7	Concerned citizen
	Developer or builder
3	Environmental organization or non-profit member
1	Community group or club member
3	Government employee
3	Other

Renton's arrogant, overzealous allowance of overdevelopment -
Puget Sound Partnership eNewsletter -
Sudent donig research (sic) -

Do you represent an organization or are you a member of one? If so, which one?

1	People for Puget Sound -
1	I work for DDES -
1	Tetrattech, Inc. -
	Director, Fauntleroy Watershed Council -
1	R Sleight
	League of Women Voters and E Renton
1	Plateau Community Council -
1	Puget Sound Partnership -
1	Thornton Creek Alliance -
1	WSU Extension Watershed Steward -

What are your key areas of interest or concern? (check all that apply)

7	Regulations
9	Surface water quality
5	Biodiversity or salmon
5	Public involvement in decision-making
7	Outreach and education
4	Other

restoring health of Puget Sound -
regulations -
watching opportunities to prevent disasters be paved over -
Lack of Permeable Pavements -

Were there any parts of the draft Stormwater Program that you did not understand after reviewing it?

2	Yes
6	No

If yes, please note the page, paragraph and your question

Much of it -
You define stormwater to include snowmelt, but I did not see how this was factored into your new manual to include snowmelt in your runoff calculations -

Do you plan to attend a meeting?

3	Yes
---	-----

**King County Stormwater Management Program
2009 SWMP Online Survey Summary**

8	No
---	----

Why?

Public comment is important -
Because stormwater is of interest to me, both professionally and personally. I am very concerned about the water quality of the area.
Regulations are excessive already -
Will be out of town -
I am working -
Previous engagement -
Likely will be in other meetings that week, our watershed council meeting is Thursday night -
I'm hearing of this too late. I'm not a resident of King County but live on the Sound and try to participate in many community discussions regarding storm water run-off quality and pollution prevention. -
This is a big issue for this region. As a WSU Extension Watershed Steward, I may be able to use any new information presented by the county in the projects I pursue. I also find it interesting how the parts fit together, such as the Natural Yard Care program being a point of evidence that the county is satisfying the requirements for the SWMS permit and not just a feel-good public service. If the state budget process guts the extension programs, how will that affect storm water management? We all need to think big at times like this. -
it has passed. -

Are these outreach opportunities sufficient?

5	Yes
5	No

If not, what else might we offer to meet your needs?

Not sure yet, Need to see how good the public meetings are -
I would like to see things happen in a more timely manner. -
Outreach to community organizations to further explain the program and educate people about it. Always seems to be that most people are unaware and unconcerned. -
2010??? -
You may already offer a place on your website for communication-- I just didn't see it before filling this out. -

How willing are you to change your behavior to protect water quality?

10	Already changing behavior
1	Very willing to change behavior
	Would consider if I knew what to do
1	Not interested

Which of the following educational topics would you find the most useful?

3	Pet waste
5	Car washing
10	Low Impact Development (green roofs, porous paving, rain gardens)
5	Storm drains
6	Native plants
4	Maintaining vehicles
5	Yard care (weed and feed, fertilizers, lawn, soils, watering)
5	Groundwater
3	Chemical and hazardous waste storage
1	Other (please describe)

**King County Stormwater Management Program
2009 SWMP Online Survey Summary**

all of the above -

What type of outreach and educational opportunities would you like King County to provide?

5	Online quiz to test knowledge
9	Workshops targeting adults
6	Classroom presentations grades K-12
4	County cable television programs
10	Web sites with how-to information
7	Public service advertising- TV, buses
4	Public meetings
6	Fact sheets
1	Quarterly newsletters
5	Regulations
1	Other (please describe)

I would like King County to back off -
