

# Healthy Horses, Healthy Watersheds

*Do pastures have to be muddy in winter? How can you keep from being buried under the 8 tons of manure your horse produces each year? Would you like to save money on feed and vet bills while having healthier horses?*

You will learn all this and more at the upcoming FREE workshops. Spend a fun and engaging evening learning from equine expert, Alayne Blicke of Horses for Clean Water. Learn how to manage your horse or livestock property to reduce mud, manage manure and improve pastures.

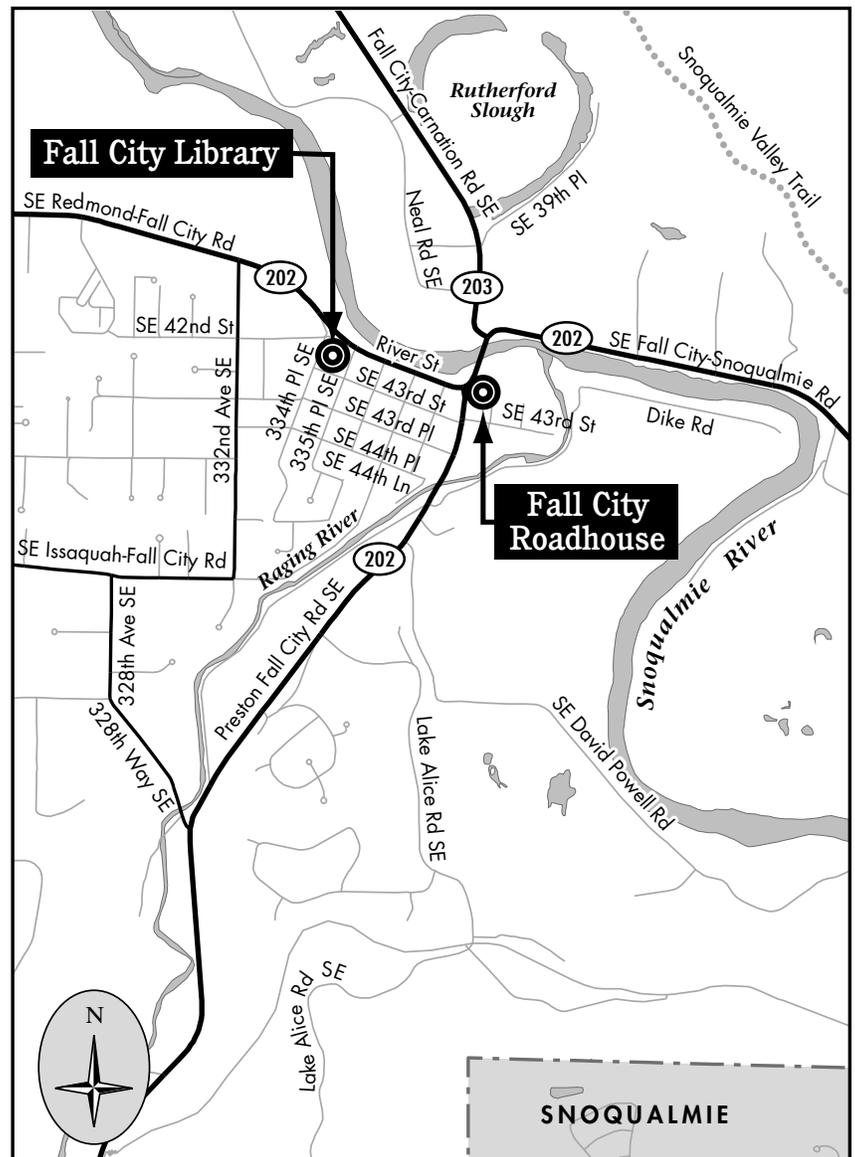

Do you own cows, sheep, llamas, alpacas, or goats? These workshops will provide useful tips and techniques for all livestock.

## FREE WORKSHOPS:

- **Tuesday, February 2, 6:30-8:45pm**  
*Mud, Runoff, Paddocks and Horse Health: Finding a Better Way to Manage Horses*

STEWARDSHIP in ACTION

Stewardship in Action is a mix of horse owners, neighbors, farmers, forest owners, non-profit and government agencies working together to help rural landowners overcome the challenges of caring for their land in the Raging River and Patterson Creek watersheds. Learn more at [www.prkc.org](http://www.prkc.org)

Alternative formats available.
