

OPEN SOURCE CIRCULAR ECONOMY days

OSCE DAYS 16

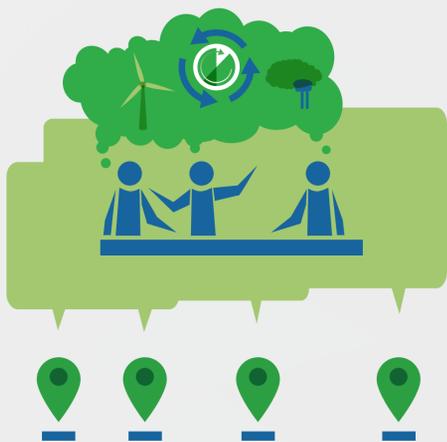

SEATTLE JUNE 10, 2016 12:30 - 5 PM

Register at psp@neomer.us Cost: \$25 & Students \$5 at the door

- Join the first ever Open Source Circular Economy days (OSCEdays) Event in Seattle!
- The OSCEdays experience are a successful global movement initiated by Berlin-based NGOs and environmental startups, supported by local activists, companies and environmentalists in more than 60 cities worldwide.
- The topic of the OSCEdays in Seattle is "The Role of Waste in a Circular Economy". Learn from international speakers, experience thinking outside the box, challenge the status-quo and join this dynamic discussion.

Become part of the innovative process for more sustainable cities!

Attend the OSCEdays Event in Seattle!

The idea of the OSCEdays movement is to connect local and international professionals, activists, authorities, students and industry to find solutions for local and regional environmental challenges. The outcome of these discussions will be shared with the global community (oscedays.org). Its goal shall be to initiate further and concrete projects based on proposed solutions advancing the approach to "Reduce, Reuse, Recover & Recycle."

Local challenges for Seattle:

- What are the benefits of a circular economy approach regarding a sustainable waste management?
- Is the "Zero Landfill" approach suitable?
- Disposal of Waste or Waste of a Resource? How to empower avoidance, reuse, recycling and recovery and phase out the practice of landfilling.

12:30 - 5 PM
