2. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Water and Land Resources Division Preliminary Report to the King County Hearing Examiner for the April 20, 1998 public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.
3. Gerald Crosby testified that he has read, understands and agrees to the Department’s recommended conditions of approval.

CONCLUSIONS:

1. Approval of current use valuation for 3.43 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 1999. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 22 points. The resulting current use value is 20% of market value for 3.43 acres of the subject

property.

RECOMMENDATION:

APPROVE the request of Gerald and Kathryn Crosby and Talequah Trust (Lawrence and Linda Allen) for current use valuation of 20% of market value for 3.43 acres of the subject property, subject to the conditions recommended in the Department of Natural Resources report for the April 20, 1998 public hearing and the following conditions:

1. The applicant shall provide to the King County Assessor a legal description, or adequate information to enable the Assessor to develop a legal description, of the improved portion of the property which shall remain assessed at 100% of market value, and the portion of the subject property (3.43 acres) which shall be assessed at its current use valuation.
2. Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement State law and County ordinances pertaining to current use valuation.
3. The applicant shall sign an agreement which accepts the conditions of approval set forth herein and meets the requirements of WAC 458-30-240. The signed agreement shall be returned to the Office of the King County Hearing Examiner prior to the close of business on December 31, 1998, or within thirty (30) days of transmittal of a proposed agreement to the applicant, whichever is later. The following conditions shall be specifically set forth in the agreement:
 - (1) Failure of the owner to comply with these conditions shall be basis for removal, by King County, of the current use designation, in which case the land shall be subject to the penalty, tax, and interest provisions of RCW 84.34 and assessed at true and fair value. The County Assessor and the Water and Land Resources Division may reevaluate the property to determine whether removal of the open space designation is appropriate. Removal shall follow the process in RCW 84.34.108.
 - (2) Revisions to this agreement may only occur upon mutual written approval of the owner and granting authority.
 - (3) The open space classification for this land will continue as long as it is primarily devoted to and used for the purpose of protecting open space. Classification will be removed if dedication to this purpose ceases to exist. A change in circumstances which diminishes the extent of public benefit from that generally outlined in the Water and Land Resources Division Preliminary Report to the King County Hearing Examiner will be cause for removal of the current use assessment classification. It is the owner's responsibility to notify the Assessor of a change in circumstance.
 - (4) When a portion of the open space land is withdrawn or removed from the program, the Water and Land Resources Division and the Assessor shall reevaluate the remaining land to determine its continued qualification under the program. If the remaining portion meets the criteria for priority resources, it may continue under current use taxation.
 - (5) Except as otherwise stated in this agreement, there shall be no alteration of the open

space land or resources. Any alteration may constitute a change of use and subject the property to the additional tax, interest, and penalty provisions of RCW 84.34.080. "Alteration" means any human-induced action that adversely impacts the existing condition of the open space land or resources including but not limited to the following:

- a. erecting structures;
 - b. grading;
 - c. filling;
 - d. dredging;
 - e. channelizing;
 - f. modifying land or hydrology for surface water management purposes;
 - g. cutting, pruning, limbing or topping, clearing, planting, introducing, relocating or removing vegetation, however, selective cutting may be permitted for firewood;
 - h. applying herbicides or pesticides or any hazardous or toxic substance;
 - i. discharging pollutants except stormwater;
 - j. paving, construction, application of gravel;
 - k. storing of equipment, household supplies, play equipment, or compost;
 - l. engaging in any other activity that adversely impacts the existing vegetation, hydrology, wildlife, wildlife habitat, or other open space resource.
 - m. (Walking, horseback riding, passive recreation or actions taken in conjunction with a resource restoration plan, or other similar activities are permitted.)
- (6) Subject to the conditions and restrictions set forth in Section 5, the following uses, activities and alterations are permitted, following receipt of written approval as set forth below:
- a. In areas that have become infested by noxious weeds, the owner shall submit a control and enhancement plan to the King County Water and Land Resources Division and local jurisdiction for approval prior to removing the weeds.
 - b. In areas invaded by non-native invasive species, replacement with native species or other appropriate vegetation may be allowed subject to approval of an enhancement plan by the King County Water and Land Resources Division.
 - c. Trees posing a hazard to structures or major roads may be removed. Any trees removed must be replaced.
- (7) There shall be no motorized vehicle driving or parking allowed on the open space land with the exception of along driveways.
- (8) Grazing of livestock shall be prohibited on the open space land.

- (9) Limited public access due to resource sensitivity will be permitted upon a designated area of the open space land. Limited public access will be permitted upon appointment with owner.

Action of the Council Final. The action of the Council on a recommendation of the Examiner shall be final and conclusive unless within twenty (20) days from the date of the action an aggrieved party or person applies for a writ of certiorari from the Superior Court in and for the County of King, State of Washington, for the purpose of review of the action taken.
