

# Mini-Grant Program

Mini-grants up to \$200 are available from the King County Solid Waste Division to conduct Green Team projects at schools. A Green Team is a group of students ready to take action to become environmental stewards at school or within the community. Green Team activities can focus on reducing waste, improving recycling, and promoting habitat stewardship. If your classroom needs money to complete a project as part of the Green Team program and meets the criteria listed below, you can apply for a grant. Get information about Green Teams and project ideas from a King County Green Team specialist at **206-583-0655** or [greenteam@triangleassociates.com](mailto:greenteam@triangleassociates.com).

## Who is eligible?

King County teachers outside the Seattle city limits whose students are registered as a King County Green Team and need funds to complete a project can apply.

## Mini-grant guidelines

The King County Solid Waste Division will fund as many projects as its annual resources allow. Please read the following guidelines thoroughly if you would like to apply for funding. All requests must comply with these guidelines.

- The maximum grant amount is \$200. If your proposed budget is more than the mini-grant amount, include how you will obtain the remainder of the money.
- Grants may be used for conducting a project, for purchase of materials, honorariums or speaker fees, for classroom activities, for field trips that relate to or expand on the project, or for other educational costs to be specified by the applicant for approval by the King County Solid Waste Division.
- Grants used for projects that educate others outside of the classroom will be given priority.
- By submitting the application, you give permission to the county to share the proposal with others. The proposal will not be returned.
- Each award winner will be responsible for preparing a one-page summary on the project and completing an evaluation at the close of the project. Including reflections from students on what they learned is encouraged. Reports must be completed by June 1. King County may reproduce, compile, and make available these reports to other educators or post them on its website.

## All projects must

- relate to recycling, waste and/or litter reduction, or conservation of resources.
- involve students.
- include adult supervision.
- be completed during the school year.

## Selection of recipients

- Applications will be considered on a first-come, first-served basis.
- Applications will be accepted from September through April of each school year.
- The King County Solid Waste Division reserves the right to approve, deny, or negotiate the scope of any project.

## Questions?

Call Triangle Associates, Inc. at **206-583-0655** or email [greenteam@triangleassociates.com](mailto:greenteam@triangleassociates.com)
