Why Should you Secure your Load?

Secure Your Load
For Safer Roads!
Vehicles arriving with unsecured loads at public or private transfer stations in King County can be charged an unsecured load fee.

Across North America, over 25,000 accidents are caused each year by litter that is either purposefully dumped by motorists or that falls out of vehicles with unsecured loads. Nearly 100 of those accidents are fatal. According to the Washington State Department of Transportation, road debris causes about 350 accidents every year on state highways. Even if you are going a short distance and not driving on a highway, you are still required by law to secure your load.
