Thursday, March 13th 2014
at the Bullitt Center in Seattle
Award Winners for Outstanding
Leadership in Green Building

Roundtable Founder Award Brad Lilejquist

Brad founded the Roundtables in 2004, he went on to lead the green building efforts in the City of Issaquah from 2007-2013. Brad was the project manager for zHome and Fire Station number 72. Brad now works for the International Living Future Institute as the Technical Director, Living Building Challenge .

Brad Lilejquist with King County Executive Dow Constantine

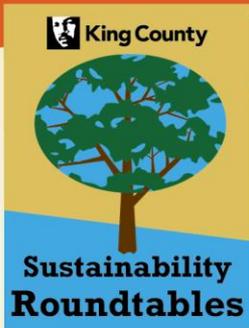

Early Adopter Award Judd Black

Judd was instrumental in bring the early Roundtables to the Eastside and a member of the original GreenTools Green Building Task Force and served on the committees for the first two Government Confluences in 2007 and 2010. Judd retired from the City of Redmond in 2013.

Judd Black with King County Executive Dow Constantine

Leadership in Green Building and Climate Collaboration

Kris Sorenson

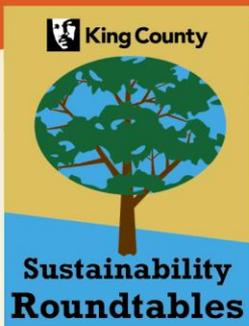

Kris has been a member of both the Green Building and Climate Collaboration Task Forces from 2011-2014. Kris played an integral role in establishing the Climate Collaboration protocol and served on committees for the 2010 and 2011 Government Confluences.

Standing in for Kris to receive his award is Planning Director Jennifer Henning with King County Executive Dow Constantine

Green Tools

Powered by the Solid Waste Division

Outstanding Leadership in Green Building International Living Future Institute

The International Living Future Institute administers the [Living Building Challenge](#) the built environment's most rigorous and ambitious performance standard and is the parent organization for [Cascadia Green Building Council](#). The Institute has worked closely with King County in support of policy development and educational programming.

Vice President Amanda Sturgeon with King County Executive Dow Constantine

Outstanding Leadership in Green Building Bullitt Foundation

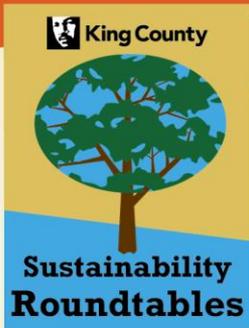

With a mission to safeguard the natural environment by promoting responsible human activities and sustainable communities in the Pacific Northwest, the [Bullitt Foundation](#) is leading by example. With the development of the [Bullitt Center](#) came the opportunity for local, regional and national jurisdictions to evaluate improvements to building codes and policies.
