

# Rural Basin Assessment for Patterson Creek Basin TABLE OF CONTENTS

*(Final)*

*Title* *Page No.*

---

<b>Acknowledgements</b> .....	<b>i</b>
<b>Acronyms, and Abbreviations, and Terms</b> .....	<b>iii</b>
<b>Table of Contents</b> .....	<b>v</b>
<b>Summary</b> .....	<b>S-1</b>
Scope of Analysis .....	S-1
Basin Description.....	S-1
Assessment of Subbasins.....	S-1
Projects Recommended for Detailed Write-up .....	S-3
Basinwide Recommendations .....	S-3
King County Workshops .....	S-4
Recommended Capital Projects and Programs .....	S-4
Further Actions Needed .....	S-6
<b>1. Introduction</b> .....	<b>1-1</b>
1.1 Purpose and Project Description .....	1-1
1.2 Study Area.....	1-1
1.3 Goals and Overall Approach.....	1-1
1.4 Project Approach .....	1-1
1.4.1 Characterization.....	1-1
1.4.2 Action Plan .....	1-2
1.5 Report Contents .....	1-2
1.6 Public Involvement .....	1-3
1.7 King County Workshops .....	1-3
<b>2. Basin Characteristics</b> .....	<b>2-1</b>
2.1 Drainage Subbasins and Stream Reaches.....	2-1
2.1.1 Subbasin 1 .....	2-2
2.1.2 Subbasin 2a .....	2-2
2.1.3 Subbasin 2b .....	2-2
2.1.4 Subbasin 2c.....	2-3
2.1.5 Subbasin 3 .....	2-3
2.1.6 Subbasin 4 .....	2-3
2.1.7 Subbasin 5 .....	2-3
2.2 Land Cover Analysis .....	2-4
2.2.1 Land Cover .....	2-4
2.2.2 Soils.....	2-5
2.2.3 Topography .....	2-6
2.2.4 GIS Analysis .....	2-7
2.2.5 Riparian Corridor Land Cover Analysis .....	2-10
2.3 Recommendations .....	2-11

<b>3.</b>	<b>Hydrology .....</b>	<b>3-1</b>
3.1	Modeling Method .....	3-1
3.1.1	Software Used .....	3-1
3.1.2	Analyses Conducted .....	3-1
3.1.3	Precipitation Variation .....	3-1
3.1.4	Land Coverage.....	3-2
3.1.5	Channel Characteristics .....	3-2
3.1.6	Qualitative Analysis of Future Buildout Conditions .....	3-2
3.1.7	Model Validation .....	3-3
3.2	Modeling Results.....	3-4
3.2.1	Flow Frequency Analysis.....	3-4
3.2.2	Mean Daily Flow .....	3-5
3.2.3	Low Flow Characteristics .....	3-6
3.2.4	Duration Analysis Results.....	3-8
3.3	Qualitative Analysis of Future Buildout Conditions .....	3-10
3.4	Further Action/Recommendations .....	3-11
<b>4.</b>	<b>Geomorphology .....</b>	<b>4-1</b>
4.1	Geology and Soil Type.....	4-1
4.2	Geomorphology Characteristics .....	4-1
4.3	Geomorphology Analysis .....	4-2
4.4	Recommendations for Further Action.....	4-4
<b>5.</b>	<b>Water Quality.....</b>	<b>5-1</b>
5.1	Existing Water Quality Data .....	5-1
5.1.1	Water Quality Standards.....	5-1
5.1.2	Water Quality Sampling Data.....	5-3
5.2	Potential Pollutant Sources.....	5-5
5.3	Conclusions.....	5-6
5.4	Recommendations for Action and Sampling.....	5-7
<b>6.</b>	<b>Stream Habitat .....</b>	<b>6-1</b>
6.1	Stream Habitat Classification Methods .....	6-2
6.1.1	General Characteristics .....	6-2
6.1.2	Subbasin Alteration .....	6-3
6.1.3	Benthic Index of Biotic Integrity.....	6-6
6.1.4	Subbasin Summary.....	6-8
6.2	Subbasin 1 Stream Habitat Classification Results.....	6-13
6.2.1	General Characteristics .....	6-13
6.2.2	Subbasin Alteration .....	6-14
6.2.3	Benthic Biodiversity.....	6-15
6.2.4	Subbasin 1 Summary .....	6-15
6.3	Subbasin 2 Stream Habitat Classification Results.....	6-17
6.3.1	General Characteristics .....	6-17
6.3.2	Subbasin Alteration .....	6-18
6.3.3	Benthic Biodiversity.....	6-20
6.3.4	Subbasin Summary.....	6-20
6.4	Subbasin 3 Stream Habitat Classification Results.....	6-22
6.4.1	General Characteristics .....	6-22

6.4.2	Subbasin Alteration .....	6-22
6.4.3	Benthic Biodiversity.....	6-24
6.4.4	Summary .....	6-25
6.5	Subbasin 4 Stream Habitat Classification Results.....	6-26
6.5.1	General Characteristics .....	6-26
6.5.2	Subbasin Alteration .....	6-27
6.5.3	Benthic Biodiversity.....	6-28
6.5.4	Summary .....	6-28
6.6	Subbasin 5 Stream Habitat Classification Results.....	6-30
6.6.1	General Characteristics .....	6-30
6.6.2	Subbasin Alteration .....	6-30
6.6.3	Benthic Biodiversity.....	6-32
6.6.4	Summary .....	6-32
6.7	Basin Summary.....	6-33
6.8	Recommendations .....	6-34
<b>7.</b>	<b>Drainage and Flooding Problem Analysis .....</b>	<b>7-1</b>
7.1	Approach to Identifying Flooding/Drainage Problems.....	7-1
7.2	Identifying the Existing Drainage Network.....	7-2
7.3	Conclusions and Recommendations.....	7-2
<b>8.</b>	<b>Basin Summary and Characterization .....</b>	<b>8-1</b>
8.1	Summary of Findings .....	8-1
8.1.1	Stream Habitat.....	8-1
8.1.2	Geomorphology .....	8-3
8.1.3	Water Quality.....	8-4
8.1.4	Flooding and Erosion .....	8-5
8.2	Watershed Vulnerability Analysis .....	8-5
<b>9.</b>	<b>Recommended Actions .....</b>	<b>9-1</b>
9.1	Capital Improvement Projects .....	9-1
9.1.1	Project Selection .....	9-1
9.1.2	Project Ranking.....	9-1
9.1.3	Project Benefits .....	9-3
9.2	Basinwide Recommendations.....	9-6
9.2.1	BW-1 Remove Fish Passage Barriers.....	9-6
9.2.2	BW-2 Riparian Habitat Restoration .....	9-6
9.2.3	BW-3 Protect/Restore Natural Hydrology .....	9-7
9.2.4	BW-4 Habitat Preservation and Acquisition .....	9-7
9.2.5	BW-5 Addition of LWD .....	9-8
9.3	Further Actions Needed.....	9-8

## Appendices

- A. CIP Project Forms
- B. Land Cover Analysis
- C. HSPF Modeling

- D. Water Quality
- E. Drainage Complaints
- F. Vulnerability Analysis
- G. References

**LIST OF TABLES**

<u>No.</u>	<u>Title</u>	<u>Page No.</u>
S-1	Recommended CIP Projects.....	S-5
S-2	Acquisition Recommendations .....	S-6
1-1	Main Elements of the Basin Characterization Process .....	1-2
2-1	Patterson Creek Subbasin Areas .....	2-1
2-2	Pervious Land Cover Type Equivalency for HSPF .....	2-5
2-3	Effective Impervious Area .....	2-5
2-4	Effective Impervious Area by Zoning Code .....	2-6
2-5	Soil Type Transformation for HSPF .....	2-6
2-6	Slope Category Equivalency for HSPF .....	2-7
2-7	Land Surface Types for HSPF.....	2-7
2-8	Predeveloped Land Surface Summary.....	2-8
2-9	Existing (2001) Land Surface Summary .....	2-8
2-10	Future Land Surface Summary .....	2-9
2-11	Existing and Future EIA, Forest Cover, and Subbasin Classification.....	2-9
2-12	Existing (2001) Land Surface Summary for 200-Foot Riparian Corridor .....	2-11
3-1	Flow Frequency Analysis .....	3-5
3-2	Mean Daily Flow Rates per Month for Period of Record .....	3-7
3-3	Mean 7-Day Low Flow .....	3-8
3-4	Flow Rate Duration Analysis for RCHRES 510.....	3-9
3-5	25-Year Future Flow Estimate per Subbasin .....	3-11
4-1	Primary Soils in Patterson Creek Basin and Corresponding HSPF Soil Type.....	4-1
4-2	Stream Reach Descriptions .....	4-2
4-3	Subbasins Most Likely Impacted by Future Buildout.....	4-4
5-1	Class A Criteria for Freshwater Streams.....	5-2
5-2	Patterson Creek Basin Sampling Sites.....	5-4
5-3	Potential Pollutant Sources.....	5-6
6-1	Habitat Conditions in Patterson Creek Basin .....	6-1
6-2	Subbasin Alteration Matrix .....	6-6
6-3	Interpretation of B-IBI Total Scores .....	6-7
6-4	The B-IBI Scoring Method (from King County 2002) .....	6-7
6-5	Field Assessment Criteria and Thresholds (from R2 Resources 2001) .....	6-9
6-6	Length of Each Channel Type along Patterson Creek in Subbasin 1 .....	6-14
6-7	Pre-Developed and Post-Developed 2-year Flows and Ratio; RCHRES Segment 100 in Subbasin 1 .....	6-15

6-8 Subbasin Alteration Matrix for Subbasin 1 ..... 6-16

6-9 Stream Lengths in Subbasin 2..... 6-18

6-10 Channel Types in Subbasin 2 by Length..... 6-18

6-11 Pre-Developed and Post-Developed 2-Year and Ratio; RCHRES  
Segments 200, 210, 220, and 230 in Subbasin 2 ..... 6-19

6-12 Subbasin Alteration Matrix for Subbasin 2 ..... 6-20

6-13 Length of Each Channel Type along Beaver Creek in Subbasin 3 ..... 6-22

6-14 Pre-Developed and Post-Developed 2-Year and Ratio; RCHRES  
Segment 300 in Subbasin 3 ..... 6-23

6-15 Subbasin Alteration Matrix for Subbasin 3 ..... 6-24

6-16 B-IBI Metric Scores for Canyon Creek at SE Issaquah Fall City  
Road..... 6-24

6-17 Stream Lengths in Subbasin 4..... 6-26

6-18 Channel Types in Subbasin 4 by Length..... 6-26

6-19 Pre-Developed and Post-Developed 2-Year and Ratio; RCHRES  
Segment 400 in Subbasin 4 ..... 6-27

6-20 Subbasin Alteration Matrix for Subbasin 4 ..... 6-28

6-21 Channel Types in Subbasin 2 by Length..... 6-30

6-22 Pre-Developed and Post-Developed 2-Year and Ratio; RCHRES  
Segments 500, 510, and 300 in Subbasin 5 ..... 6-31

6-23 Subbasins Alteration Matrix for Subbasin 5..... 6-32

  

7-1 Drainage Problems Identified for Potential Improvement Projects..... 7-2

  

8-1 Results of Watershed Vulnerability Analysis ..... 8-6

  

9-1 Potential Capital Improvement Projects ..... (follows page 9-1)

9-2 Capital Improvement Project Ranking..... 9-2

9-3 Acquisition Project Ranking..... 9-3

9-4 Project Benefits of Projects with Detailed Write-ups ..... 9-5

## LIST OF FIGURES

<i>Chapter Title</i>	<i>Page No.</i>
2.1 Patterson Creek Basin – Sub-Basin Delineation .....	<i>follows page 2-1</i>
2.2 Graphic Representation of RCHRES Routing .....	2-2
2.3 Patterson Creek Basin – 2001 Land Cover Map .....	<i>follows page 2-4</i>
2.4 Patterson Creek Basin – Zoning Map .....	<i>follows page 2-4</i>
2.5 Patterson Creek Basin – Soils Map .....	<i>follows page 2-5</i>
2.6 Patterson Creek Basin – Topographic Map .....	<i>follows page 2-6</i>
2.7 Patterson Creek Basin – 200 Foot Riparian Corridor Map .....	<i>follows page 2-10</i>
3.1 Actual and Simulated Average Daily Flow with Precipitation .....	3-3
3.2 Hourly Rainfall Comparison .....	3-4
3.3 Peak Annual Discharge for RCHRES 510 from 2-yr to 100-year Return Frequency .....	3-6
3.4 Percent Exceedance for Predeveloped and Existing Conditions .....	3-10
5.1 Patterson Creek Gauging Stations .....	<i>follows page 5-1</i>
5.2 Patterson Creek Potential Sources .....	<i>follows page 5-5</i>
6.1 Patterson Creek Basin – Channel Type Map .....	<i>follows page 6-13</i>
6.2 Patterson Creek Basin Fish Passage Barriers and Inaccessible Habitats .....	<i>follows page 6-14</i>
6.3 Patterson Creek Basin Valuable and Degradated Habitats .....	<i>follows page 6-33</i>
9.1 Patterson Creek Basin – Capital Improvement Projects .....	<i>follows page 9-1</i>
9.2 Sample Worksheet for Ranking Recommended Capital Improvement Projects .....	9-4
