

LIST OF MAPS

- Map 1. Net shore-drift cells of WRIA 8 & 9 (Dept of Ecology with CGS edits)
- Map 2. Subareas of the WRIA 8 & 9 study area
- Map 3. Northern Railroad Sub area – Current and Historic (buffered offshore) sediment sources
- Map 4. Salmon Bay to Elliot Bay – Current and Historic (buffered offshore) sediment sources
- Map 5. Duwamish Head to Three Tree Point - Current and Historic (buffered offshore) sediment sources
- Map 6. Three Tree Point to Federal Way - Current and Historic (buffered offshore) sediment sources
- Map 7. Vashon and Maury Islands - Current and Historic (buffered offshore) sediment sources
- Map 8. Landslides mapped in WRIA 8 & 9 (CGS field mapping, fall 2004)
- Map 9. Toe erosion mapped in WRIA 8 & 9 (CGS field mapping, fall 2004)
- Map 10. Northern Railroad Subarea - Current and Historic (buffered offshore) Accretion shoreforms
- Map 11. Salmon Bay to Elliot Bay - Current and Historic (buffered offshore) Accretion shoreforms
- Map 12. Duwamish Head to Three Tree Point - Current and Historic (buffered offshore) Accretion shoreforms
- Map 13. Three Tree Point to Federal Way - Current and Historic (buffered offshore) Accretion shoreforms
- Map 14. Vashon and Maury Islands - Current and Historic (buffered offshore) Accretion shoreforms
- Map 15. Sediment sources of the highest restoration priority
- Map 16. Sediment sources of the highest conservation priority
- Map 17. Top 3 sediment sources for restoration and conservation within each drift cell
- Map 18. Restoration Prioritization by Drift Cell
- Map 19. Conservation Prioritization by Drift Cell
