Pilot Organics Collection at Vashon Recycling and Transfer Station (VRTS)

- Pilot organics collection at VRTS. The purpose of the pilot is to evaluate the amount of expected tons with a permanent program. With no current organics recycling infrastructure on Vashon Island at this time, it is difficult to estimate expected tons without implementing a collection pilot. Data will inform potential future SWD capital decisions and broader knowledge for the community to more sustainably manage Island organics. Potential timing for the pilot is April 1, 2015 – December 31, 2015, pending approval from the Health Department.

Director’s Office
2014 Code Updates
• An ordinance updating building and fire codes was adopted.
• An omnibus code update was adopted that included changes to zoning, permit processing and subdivision standards, making technical corrections and improving the alignment of county regulations with rural and resource land uses.
• Ordinances 17877 and 178978 were adopted creating an alluvial fan demonstration project that allowed up to ten projects, five within shoreline jurisdiction and five outside of shoreline jurisdiction. These projects will test and evaluate alternative ways to manage sediment deposited on alluvial fans.
• Extended moratorium on permits for medical marijuana dispensaries and collective gardens to June 15, 2015 to allow for action by State Legislature and possible County code amendments.

Metro Transit
Alternative Transit Service Study
Metro’s Five-Year Implementation Plan for Alternative Service Delivery identifies three candidate areas for demonstration projects, including Vashon and Maury Islands. Metro’s objective with this demonstration will be to provide the same level of mobility—or better—at a lower cost than current fixed route service.
• Planning/outreach likely to begin in late 2015 with service implementation likely to occur in 2016
DeAnna Martin - 206.477.3835 • deanna.martin@kingcounty.gov

Service Guidelines Task Force
In 2010, King County formed a Regional Transit Task Force which recommended that Metro create objective, data-based guidelines for planning and managing transit service. Metro responded to this recommendation, and the King County Council adopted Metro’s strategic plan and service guidelines in July 2011.

Now, after several years’ use of the service guidelines in transit planning, the King County Council has asked Metro to form a new task force to further analyze how transit service is evaluated and allocated. Specifically, the Council asked the task force to review and make recommendations regarding:
1. How transit service performance is measured to reflect the varied purposes of different types of transit service.
2. Approaches to evaluating how the goal of geographic value is included in the guidelines, including minimum service standards.
3. Approaches to evaluating how the goal of social equity is included in the guidelines.
4. Financial policies for purchase of additional services within a municipality or among multiple municipalities.
5. Guidelines for alternative services implementation.

The Service Guidelines Task Force, comprised of 33 executive level participants, will do this work in the first part of 2015 so that it can influence development of both Metro’s long-range plan, scheduled to be complete by mid-2016, and its service guidelines update, scheduled to be complete by April 2016.

Metro Long Range Plan
With King County growing fast, it’s time to lay the foundation for a public transportation system that moves more people and moves them better. What should our transit system look like in 25 years? How can we support our economy, our environment, and the people who live here? How will Metro integrate with the expanding light rail system? These are the kind of questions that captured the imagination of civic leaders years ago, and their vision led to the public transportation system we rely on today. Now it’s time to imagine a new future.

**Current Use Taxation**
The Public Benefit Rating System programs provide incentives to encourage landowners to voluntarily conserve and protect land resources, open space, and timber. In return for preserving and managing resources, the land is assessed at a value consistent with its “current use” rather than the “highest and best use.” The reduction in assessed land value is greater than 50 percent and as much as 90 percent for the portion of the land participating in the program.

King County Sheriff’s Office

The King County Sheriff’s Office consists of over 1,000 commissioned and professional staff employees who provide services to unincorporated King County. These services include reactive 9-1-1 patrol, search & rescue, undercover drug and gang enforcement, property crime investigations, homicide, assault, robbery and sexual assault investigations, as well as a variety of other services including concealed weapons licensing, fingerprinting, etc.

Under Sheriff Urquhart’s leadership, the Sheriff’s Office transitioned to a Precinct Model for deploying deputies beginning in 2013. This returned formal roll calls and gave sergeants the opportunity to work with their deputies on crime trends, protocol, procedure, and values.

Deputies are now assigned to fairly consistent patrol areas. This allows them to become familiar with citizens, businesses, and residential areas in their assigned patrol districts. They are expected to build relationships and learn the particular problems in an area or neighborhood, as well as focus on crime trends.

Precincts are referred to as Precincts #2, #3, & #4...or Northeast, Southeast, and Southwest, respectively. Precinct #2 is in Sammamish City Hall, Precinct #3 is in the Hicks Raburn Precinct building in Maple Valley, and Precinct #4 is in Burien.
