

Backcountry Bridge Improvement Program

King County Parks Legacy Fund

Parks and trails are at the heart of the 25,000 acre King County Parks system. Parks like Cougar Mountain have miles and miles of trails visited by thousands each year.

In 2009, King County Parks is embarking on an ambitious effort to improve the condition of our backcountry hiking and equestrian trails. This means making key improvements to the trails themselves and our aging bridges along our backcountry trails.

Help make your favorite trail even better!

You can leave a legacy for future generations of trail users by donating today to the King County Parks bridge improvement program. A simple gift of any dollar amount supports our efforts, and with a naming gift of \$10,000 or more, we will name the bridge in honor of you or a loved one.

Make a Donation

To make a general gift toward the bridge improvement program, you can donate online via our 501(c)3 partner, Groundswell NW, or donate by mail using the following donate-by-mail form:

<http://www.metrokc.gov/parks/documents/RemitEnvelopeWeb.pdf>

If you are interested in a naming gift, please contact pearson.cummings@kingcounty.gov
