Directions to use the Salvage Assessment:

- Completed for all permitted projects that include demolition, such as whole building removal and alterations, where the area of work is either greater than 750 square feet OR the construction value is greater than \$75,000.
- To be filled out by the owner or authorized agent.
- Using the matrix below, identify all building materials impacted by demolition that could be salvaged and reused ON or OFF-SITE instead of being sent to a landfill or recycled.
- Submit this form to the jurisdiction prior to permit issuance

By checking this box, you have determined your project does not meet either the 750 s.f. or \$75,000 threshold and do not need to complete this form.

Salvage Assessment Matrix

Building Component	Specific Material	Quantity	Identified for Salvage (Y/N)	Notes
Cabinets	Solid Wood (with back panel)			
	Other (with back panel)			
Carpet	Tile			
	Roll			
Doors	Interior			
	Exterior			
	Garage			
Flooring	Solid Floor			
Insulation	Batts			
Lighting Fixtures	Lighting Fixtures			
Plumbing	Bathtub/sinks			
	Piping			
	Other fixtures meeting current code			

Building Component	Specific Material	Quantity	Identified for Salvage (Y/N)	Notes
