RECYCLING

Does a recycling truck collect recyclables from the curb or alley of your home? Yes No

If not, do you take your recyclables to a recycling site? Yes No

Is there another place you or a member of your family recycles, such as at school or work?

Did you know?

There are recycling boxes at transfer stations throughout King County where you can drop your recyclables off. Find your nearest transfer station at your.kingcounty.gov/solidwaste/facilities/transfer.asp.

At home or other place where you recycle, check off which materials can go in your recycling bin.

- | | | |
|--------------------------|--|-------------------|
| Plastic bags | Cereal/food boxes | Aluminum cans |
| Plastic bottles w/o lids | Magazines, catalogs and phone books | Steel or tin cans |
| Plastic milk jugs | Mixed paper | Other _____ |
| Plastic tubs w/o lids | Paper milk cartons and ice cream cartons | _____ |
| Cardboard | Glass bottles and jars | _____ |

Hint! Look for the label on your recycling bin or check online at your.kingcounty.gov/solidwaste/garbage-recycling/recycling-quick-guide.asp.

Still have questions? Go to your.kingcounty.gov/solidwaste/wdidw/index.asp to find out what you can do with an item.

Where are your recycling bins located in your home?

- | | |
|---------|-----------------|
| Kitchen | Garage/outdoors |
| Office | Other _____ |
| | _____ |
| | _____ |

Did you know?

Twenty-one percent of all materials found at the Cedar Hills landfill is paper that could have been recycled.

Do all members of your family participate in recycling? Yes No

Why or why not? _____

Now that you know what you can recycle, are there any items you typically see in your garbage that could have been recycled?

Did you know?

Recycling one ton of recycled paper saves 3,700 pounds of lumber and 24,000 gallons of water.

List three actions your family could take to improve (or start) recycling in your home.

1. _____
2. _____
3. _____

FOOD SCRAPS, FOOD-SOILED PAPER, AND YARD WASTE

How many times a week do you throw away leftover food or food that has spoiled? _____

Helpful Hint! – Store food items that need to be used quickly at the front of your fridge. Plan upcoming meals around food that needs to be used up. Freeze items that you can't use right away. Find more food-saving techniques at recyclefood.com.

Did you know?

In 2011, King County residents threw away over 80,000 tons of food scraps and compostable paper at the Cedar Hills landfill. All of it could have been made into rich compost, a valuable resource.

If you do not have a yard, skip to the next section.

Does a yard waste truck collect yard waste from the curb or alley of your home? Yes No
If not, what happens to your yard waste, food scraps and food-soiled paper?

Check off which items can go in your yard waste bin at home. If you compost in your back yard, underline the items that can go in your backyard compost bin or pile.

Did you know?

Some transfer stations accept yard waste. Find your nearest one at your.kingcounty.gov/solidwaste/garbage-recycling/yardwaste.asp#collect.

Bread, pasta, grains	Houseplants
Coffee grounds, coffee filters	Meat, fish, poultry, bones
Dairy products (yogurt, cheese, etc.)	Paper towels and napkins
Delivery pizza boxes	Plant trimmings
Eggshells, egg cartons	Uncoated paper plates and cups
Fruit and vegetable scraps	Weeds
Grass and leaves	Other _____

Hint! Look for the label on the yard waste bin or find out at your.kingcounty.gov/solidwaste/garbage-recycling/recycling-quick-guide.asp.

Helpful Hint! – Use a compostable bag approved for collection of food waste or wrap it in newspaper before putting it in the container. Find a list of compostable bag retailers at your.kingcounty.gov/solidwaste/garbage-recycling/biodegradable-bags.asp.

Find more helpful hints at www.facebook.com/recyclemore.

How do you collect food scraps and food-soiled paper in your kitchen? Describe the process.

Do all members of your family participate in the system you have in place? Yes No

Why or why not? _____

List two actions your family could take to improve (or start) collection of yard waste and food scraps and food soiled paper at home.

1. _____

2. _____

Put food scraps and compostable bags in yard waste bin.

Did you know?

The average single-family household throws away about ten pounds per week or 40 pounds per month of food scraps and food-soiled paper.

Did you know?

Nearly 30 percent of what ends up in the Cedar Hills landfill is food scraps and food soiled paper.

WASTE PREVENTION

Discuss with your family what the term *waste prevention* means. Write down your definitions and ideas.

Helpful Hints for Waste Prevention

- Use reusable shopping bags.
- Buy minimally packaged goods and look for recyclable packaging.
- Avoid Styrofoam.
- Buy a durable reusable water bottle
- Think before you buy: Do we really need this?

Think back on those five typical items in your garbage can. Also, look in your recycling bin. Are there items that your household could *rethink*? That is, are there items that need not have been used in the first place? What could you use instead?

List three ideas to reduce your household waste.

1. _____
2. _____
3. _____

E-WASTE

E-waste stands for electronic waste and includes items such as cell phones, iPods, computers, TVs and laptops.

How does your family dispose (or get rid) of old electronics?

Have you heard of the Take It Back network? This is a group of retailers, recyclers and charitable organizations that provide consumers with options for recycling electronics and fluorescent bulbs and tubes that contain hazardous materials. Find out more at takeitbacknetwork.org.

Did you know?

E-Cycle Washington is a program that requires manufacturers to provide **FREE** recycling of TVs, computers and monitors to small businesses and households.

Go to ecyclewashington.org to find recycling locations near you.

TEAR OFF FLAP TO KEEP AT HOME

ACTION PLAN!

Write your proposed actions in the space below as a reminder to everyone in your household.

Three actions to improve or start recycling in your home.

1. _____
2. _____
3. _____

Two actions to improve or start yard waste and food-scrap collection at home.

1. _____
2. _____

Three actions to reduce household garbage.

1. _____
2. _____
3. _____
