

IMPLEMENTATION PLAN

8.1 IMPLEMENTATION PLAN

This chapter describes the implementation plan for the proposed alternative - Pipeline Bottom-of-Basin Storage (Alternative 1B). It includes the preliminary project schedule and lists the permits required for project implementation.

8.1.1 Project Schedule

The preliminary project schedule is summarized in Table 8.1.

Activity	Anticipated Dates
Facility Plan Development	June 2010 – December 2010
SEPA	November 2010 – April 2011
Facility Plan Approval	June 2011
Permitting and Property Acquisition	June 2011 – September 2012
Final Design Consultant Selection	December 2010 – June 2011
Final Design	September 2011 – September 2012
Construction	March 2013 – August 2014
Start-up	September 2014 – June 2015
Project Commissioning	October 2014 – May 2016 (2 wet seasons)

8.1.2 Required Permits

The following permits will be obtained prior to construction of the new facility:

- Washington Department of Ecology:
 - NPDES Permit (construction dewatering).
 - Underground Storage Tank Permit (required for generator).
- Seattle Department of Planning and Development:
 - Master Use Permit:
 - Council Conditional Use (for ancillary facilities).
 - Building Permit.
 - Clear and Grade (will include any critical areas review).

- Seattle Department of Transportation:
 - Street Use Permit.
 - Utility Permit.
- King County:
 - Industrial Waste Stormwater Discharge Permit.

Other permits that may apply to the facility:

- Puget Sound Clean Air Agency:
 - Air Quality Permit (for odor control).
