

**CONSTRUCTION UPDATE**

**Road Paving begins in Innis Arden in  
Mid-April, 2008**

Work on the Boeing Creek Trunk Sewer is coming to a close in western Shoreline. Now that the new Boeing Creek Trunk Sewer is operational, Watson Asphalt Paving Co. will begin work to restore pavement in the Innis Arden area. Sewer and water line construction damaged street surfaces. The streets will be restored with a full-width asphalt overlay. In addition, a four-foot wide asphalt shoulder will be added along the north and east sides of the roads at the request of the City of Shoreline.

Crews will begin work in Innis Arden in April and continue north, navigating around ongoing construction activities. Watson Asphalt Paving Co. crews anticipate completing the pavement overlay by the end of June, weather permitting. In addition, construction crews will be present after paving is complete to finish work on the new sewer system, water lines, and final restoration in the public right-of-way along the paved surface.

**What neighbors can expect:**

- Crews may work from 7 am until 10 pm from Monday to Friday. Crews may also work on Saturday
- The temporary asphalt patches will be leveled by grinding before pavement overlay occurs
- A four-foot wide asphalt shoulder will be installed on some sections of the east and north sides of the road, in the publicly owned right of way.
- Traffic delays can be expected in areas where paving activity is underway; drivers can expect delays that may extend up to 45 minutes. Flaggers will direct traffic and attempt to minimize delays.
- Emergency vehicles will be allowed immediate access through the site. School buses and delivery vehicles will receive priority during traffic delays. Please be patient during this time
- If construction work impacts access to homes or businesses please notify crews onsite, or call the hotline below

Please call the 24-hour construction hotline at **206-205-5968** if you have questions or concerns. A staff member will be paged and will respond promptly.

**Thank you for your patience during construction!**
