

**AGENDA**  
**King County Flood Hazard Management Plan Update**  
**Citizen's Committee Meeting # 5**  
**June 12, 2012 5:00 – 8:00**  
**Mercer Island Community Center**  
**8236 SE 24<sup>th</sup> Street**  
**Mercer Island, WA 98040**

---

**Objectives:**

- To ensure that projects put forth for consideration by the District are consistent with the fundamental tenets of the District's Flood Hazard Management Plan, and to keep focused on the highest priority flood and channel migration risks.
  - To review examples that illustrate implementation of the King County sediment management program.
  - To ensure that the King County Flood Hazard Management Plan addresses the need to provide flood risk reduction services equitably throughout King County.
- 

**1. Welcome and Citizens Committee Introductions (5 min)** 5:00 – 5:05

**2. Housekeeping (5 min)** 5:05 – 5:10

Review of Minutes from March 13, 2012 meeting

**3. Capital Project Prioritization, Sequencing Approach, and Eligibility Criteria (75 min)**  
5:10 – 6:25

**Key questions:**

1. Should the FHMP update better define eligibility and ineligibility requirements for project funding and implementation through enhancement of FHMP policy to include an eligibility filter?
2. Should the Plan update provide enhanced criteria that clearly identify when flood damage repairs are necessary?
3. Should the FHMP update strengthen the project prioritization and sequencing process criteria so that all project proposals are evaluated and screened against pertinent FHMP policies, receiving points if specified plan policy components are met and to better reflect the current annual CIP criteria which have evolved over the past four years since the KCFCD was established?

**BREAK (15 min)** 6:25 – 6:40

**4. Gravel and Sediment Management (40 min)**

6:40 – 7:20

**Key question:** King County proposes to implement the existing sediment management program as described in Flood Plan Section 4.3.1, with minor edits to update it. Do you agree with this proposal?

**5. Equity and Social Justice: Outreach to Vulnerable & Underserved Populations (25 min)**

7:20 – 7:45

**Key questions:**

1. What networks can we build or enhance to improve our delivery of the Flood Education and Flood Preparedness Program to vulnerable or historically underserved populations?
2. How can we assess the effectiveness of outreach to vulnerable and underserved populations, knowing that this is a very difficult population to assess by traditional survey methodology?
3. What networks can we build or enhance to improve our delivery of the flood risk reduction programs to vulnerable or historically underserved populations? What alternative mitigation options could be proposed for special needs, such as low-income, physical or developmental disabilities?

**6. General Public Comments (10 min)**

7:45 – 7:55

**7. Next Steps (5 min)**

7:55 – 8:00

**Next Meeting: Thursday, June 28, 5:00 – 8:00, Mercer Island Community Center**
