Name of Proposal: Shake Mill Right Bank Levee Repair

Agency Contact: Linda Bartolini Venegas

Description of Proposal:

The Shake Mill Right Bank Levee Repair Project will repair up to 80 feet of damage on the levee between the North Fork Bridge and the mouth of Tate Creek. The damaged area will be repaired with a tracked excavator operating from the top of the levee to place large riprap at the toe of the facility below the ordinary high-water mark (OWHM) within the pre-damaged levee footprint. Up to three rows of 4-man riprap will be placed below the ordinary high-water mark. The maximum volume of riprap placed will be 140 cubic yards. The repair has been designed to keep within the pre-damage footprint of the existing levee with no waterward expansion or increase in its height or length.

Location of Proposal:

The proposed project is located in unincorporated King County, south of the intersection of SE Reinig Road and 428th Avenue SE, approximately 3.5 miles east of the City of Snoqualmie and 2.5 miles north of the City of North Bend. The project is on the right bank of the North Fork Snoqualmie River, at River Mile 0.3. The work will be done on privately owned parcel 3424089002 (8306 428th Ave SE, North Bend, WA 98065) within the NE ¼ Section 34, Township 24N, Range 8E. King County has a River Protection Easement on this parcel.

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An Environmental Impact Statement (EIS) is not required under Revised Code of Washington (RCW) 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. THIS INFORMATION IS AVAILABLE TO THE PUBLIC ON REQUEST (for a nominal photocopying fee) or by visiting www.kingcounty.gov/WLRD-SEPA.

This determination is based on the following findings and conclusions:

No effects of this proposal rise to the level of Environmentally Significant. All impacts will be mitigated and the overall effect on the environment will be significantly adverse.

THIS DETERMINATION OF NON-SIGNIFICANCE (DNS) is issued under Washington Administrative Code (WAC) 197-11-340(2); the lead agency will not act on this proposal until after **May 15, 2020**. Comments must be submitted or postmarked by that date.
