PLANTING NOTES:
1. Plant disturbed areas landward of existing and new bulkhead return.
2. Adjust plant quantities to achieve shrub spacing specified.
3. Layout and install shrubs as directed by project representative.

<td>25</td>
<td>3'-4' O.C.</td>
</tr>
</tbody>
</table>

NOTES:
1. All plant material must be kept moist.
2. Place all plants so that root collar is level with finished grade.
3. Compact soil under plant so plant does not settle.
4. Form a watering basin 4 inches above finished grade.
5. Apply mulch per specifications.
6. Keep mulch 4 inches from plant stem.
