

Contributors to King County's SciFYI

Jim Bower

Jim is an Environmental Scientist III/Fish Ecologist in the King County Science and Technical Support Section. He is King County's technical representative for the Lake Sammamish kokanee and WRIA 8 Chinook restoration planning areas. His work with native kokanee involves collaboration with numerous public agencies, private landowners, and conservation organizations; his work includes various long-term monitoring and coordination of annual kokanee recovery actions. Jim also provides technical support to WRIA 8 project planning, study design, monitoring implementation, and grant review.

Jim Simmonds

Jim is the Water Quality Unit Supervisor of King County's Science and Technical Support Section. He has over 25 years' experience monitoring and modeling environmental conditions, managing environmental investigations, managing environmental data, and assessing potential impacts of stormwater, wastewater, and environmental contamination. He has been with King County for 17 years.

Carly Greyell

Carly is an ecotoxicologist in the King County Science and Technical Support Section. She has been supporting many of the Lower Duwamish source control projects and involved in ongoing toxics monitoring and projects assessing the effectiveness of stormwater treatment.

Jen Vanderhoof

Jen is an Environmental Scientist III/Senior Ecologist in King County's Science and Technical Support Section. Jen's work often focuses on issues related to wildlife and biodiversity (including beaver-related issues) and climate change. She frequently consults on wildlife and habitat-related questions and policies for King County Parks and Recreation Division, the Wastewater Treatment Division, the Director's Office, and the Floodplain Management Section. Jen is currently the project manager for a shoreline and estuary restoration project at Saltwater State Park, and she is conducting the wetland and riparian analyses for the Bear Creek Basin Watershed Plan.
