~8:00 PM Meeting Adjourns

The Committee follows the criteria below to determine whether a project should be closed and/or contains funds that are no longer necessary for the project’s completion:

- project has been completed under budget;
- no purchase and sale agreement has been obtained;
- negotiations are inactive and no matching funds have been obtained or are likely to be obtained;
- other project partners are no longer working on the project;
- the applicant has requested that the funding is transferred out and project is closed;
- the project has changed and no longer meets CFT requirements;
- little or no progress is being made, and no extenuating circumstances such as legal issues are preventing the project from being completed.

When the Committee recommends an allocation of project funds into a project it follows the criteria below, listed in order of importance:

- 1) to complete approved projects with a real deal and a funding shortfall;
- 2) currently approved projects showing progress with a funding shortfall;
- 3) a preference for projects located in the same geographic area or jurisdiction.
