Project Description:

1122034 Covington – South Covington Park/Jenkins Creek Trail

This project consists of three parcels totaling 5.65 acres on SE Wax Road, in the Jenkins Creek corridor. There is a dual goal for the project: the first is to create a trail connection between the planned Covington Town Center, which is located nearby to the northeast, and a city-wide trail system that connects with other Covington parks and open spaces. The second goal is habitat protection along Jenkins Creek, which runs parallel to the future trail. The project site is critically located at a planned trail crossing on SE Wax Road.

FY 2017 award: \$100,000 is allocated to this previously partially-funded project. The funding will help acquire the remaining two parcels totaling 2.25 acres on the Jenkins Creek corridor in Covington. The site will serve as a trail crossing on SE Wax Road, south of SE 275th Street, linking the planned Covington Town Center with a city-wide off-road trail system that connects to other public parks and open spaces. Jenkins Creek flows through the southern portions of the two properties, and a project goal is to protect riparian habitat along the creek.

2017 reallocation award: \$260,000 is added to this project toward the existing scope.
