

**AMENDMENT TO THE CONSERVATION FUTURES
INTERLOCAL COOPERATION AGREEMENT
BETWEEN KING COUNTY AND THE CITY OF SEATTLE
FOR OPEN SPACE ACQUISITION PROJECTS**

961122-8937 09:50:00 AM KING COUNTY RECORDS 001 JD .00

Preamble

The King County Council, through Ordinance 9128, has established a Conservation Futures Levy Fund and appropriated proceeds to King County, the City of Seattle, and certain suburban cities. Ordinance 9430 provided for the use of Conservation Futures Levy proceeds collected in the years 1990 through 1993 for the completion of projects as set forth in Ordinance 9071. Ordinance 10750 established a biennial allocation process beginning in January 1, 1994. This amendment is entered into to provide for the allocation of proceeds made available from the 1994 and 1995 Conservation Futures Levy proceeds. The parties have agreed to amend the existing Interlocal Cooperation Agreement to provide for additions in the references to the fund allocation.

THIS AMENDMENT is entered into between the CITY OF SEATTLE ("City") and KING COUNTY, and amends and attaches to and is part thereof of the existing Interlocal Cooperation Agreement entered into between the parties on the 5th day of June, 1990.

The parties agree to the following amendments:

Amendment 1: Article 1. Recitals

A fifth paragraph is hereby added to the Recitals Section to provide for the 1994/95 Conservation Futures Levy allocation, and hereafter reads:

"On October 21, 1996, the King County Council passed Ordinance 12500, which appropriated a total of One Million Twenty-five Thousand Three Hundred Forty-seven Dollars (\$1,025,347) in Conservation Futures Levy proceeds to the City of Seattle. The Council has approved the allocation of 1994/95 Conservation Futures Levy proceeds to the City of Seattle and authorized the King County Executive to amend the existing interlocal cooperation agreement with the City of Seattle in order to initiate the approved payments."

Amendment 2: Article VII, Responsibility of County

The first two sentences of this article are amended to include Attachment J, which lists the 1994/95 Conservation Futures Levy Allocation for the City of Seattle's Greenspace Additions,

Ballard/Greenwood Neighborhood Open Space, and Thornton Creek Watershed Projects, and hereafter reads:

“Subject to the terms of this agreement, the County will provide Conservation Futures Levy Funds in the amounts shown in Attachments A, B, C, D, E, F, G, H, I and J. The City may request additional funds; however, the County has no obligation to provide funds to the City in excess of the amounts shown in Attachments A, B, C, D, E, F, G, H, I and J.”

In all other respects, the terms, conditions, duties and obligations of both parties shall remain the same as agreed to in the Interlocal Cooperation Agreement.

This document shall be attached to the existing Interlocal Cooperation Agreement.

IN WITNESS WHEREOF, authorized representatives of the parties hereto have signed their names in the spaces set forth below:

1994/95 CONSERVATION FUTURES LEVY
CITY OF SEATTLE
ALLOCATION

<u>Jurisdiction</u>	<u>Project</u>	<u>Allocation</u>
Seattle	Greenspace Additions	\$ 479,000
	Ballard/Greenwood Neighborhood Open Space	\$ 436,347
	Thornton Creek Watershed (Victory Creek)	\$ 110,000
	TOTAL	<u>\$1,025,347</u>

Project Description

City of Seattle - Greenspace Additions: This project is for greenspace additions adjacent to the Duwamish Head Greenbelt, and in the Maple School Natural Area. These properties were identified as priorities in the City's 1993 Greenspaces Policy. The Duwamish Head Greenbelt addition property is located in West Seattle along Harbor Avenue, is highly visible from downtown Seattle; has an excellent view of the City, Elliot Bay and the Cascades, and is threatened by development. The Maple School ravine property is adjacent to Graham Street, an east/west arterial between the Duwamish valley and the Beacon Hill Neighborhood.

City of Seattle - Ballard/Greenwood Neighborhood Open Space: The goal of this project is to acquire needed open space in a densely populated Seattle community that is currently under-served. The local community has conducted an impressive grass roots open space identification planning process that has yielded over 100 possible sites for local open space acquisitions. The community has agreed to identify a final list of properties for acquisition by September 1996. The Greenwood property, one of the possible acquisitions, is located along the Interurban North Trail and will complement this regional facility.

City of Seattle - Thornton Creek Watershed (Victory Creek): This project includes a wooded .16 acre parcel that contains the confluence of Thornton and Victory Creeks, in Northeast Seattle. This property complements additional nearby city acquisitions and street vacations and meets the criteria for the Urban Waterways 2000 program.
