

SKYWAY-WEST HILL DRAINAGE STUDY

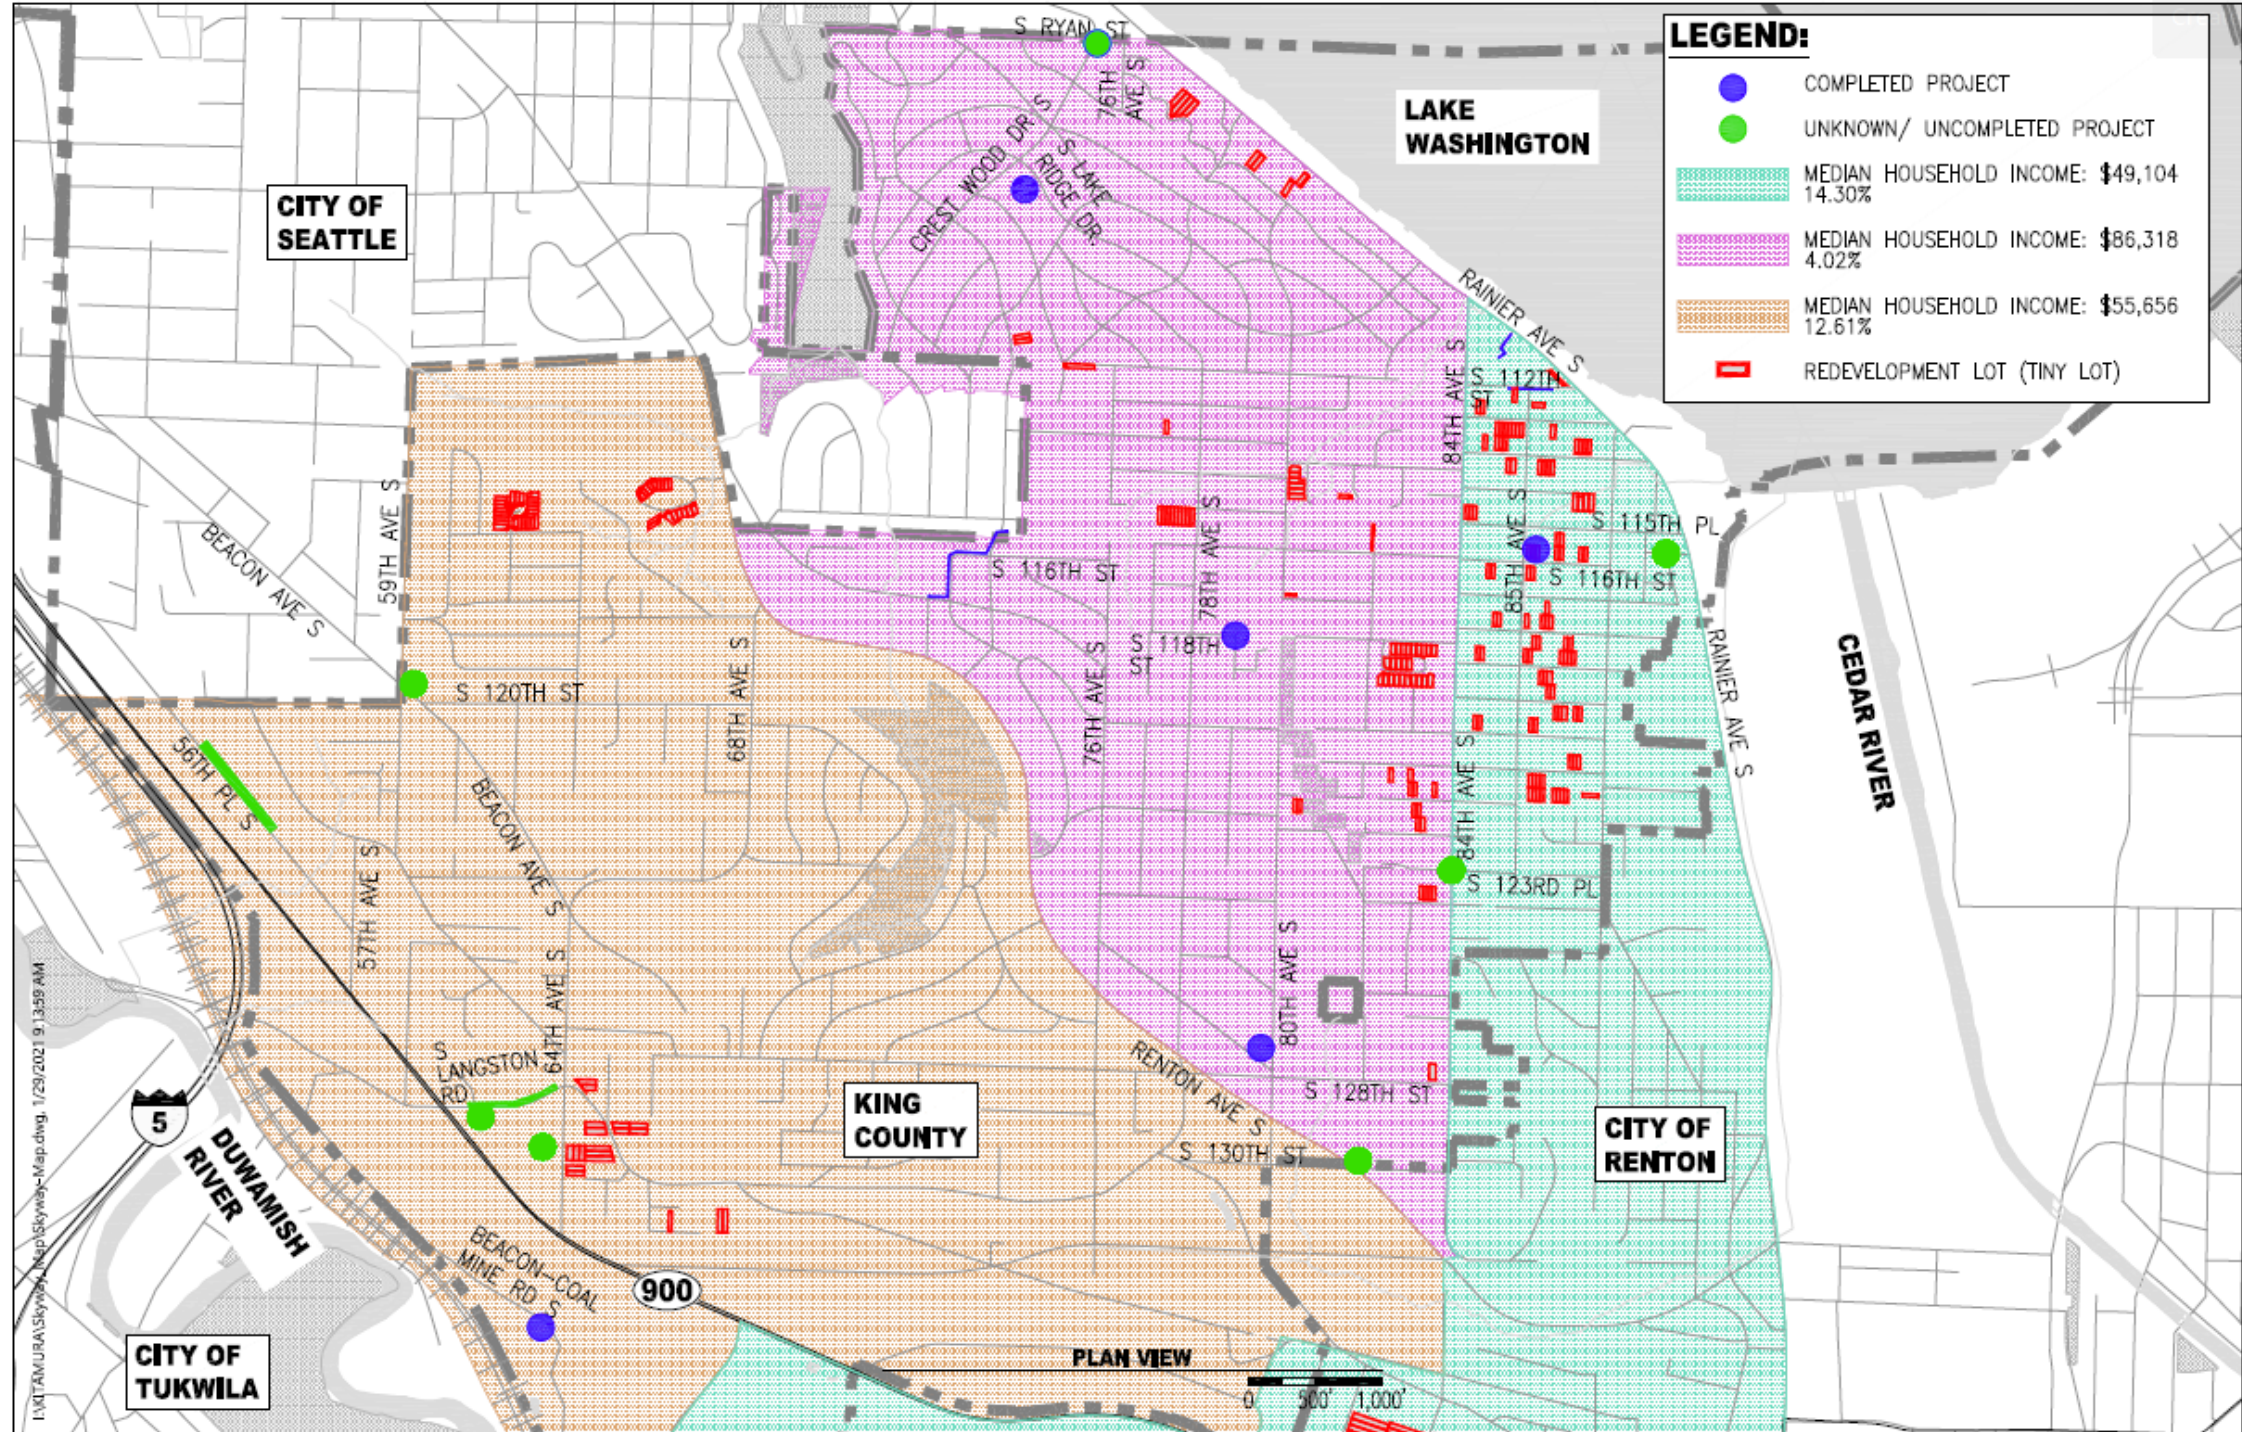

Project Manager: Hung Huynh, P.E.
Consultant: HDR Engineering, Inc.

Skyway West Hill area

Purpose:

- Correct existing and future stormwater runoff problems
water quality, flow control and infrastructure (pipe) capacity.
- Update 1999 list
- Identify, evaluate and prioritize stormwater
- Assess stormwater impacts from redevelopment

LEGEND:

- COMPLETED PROJECT
- UNKNOWN/ UNCOMPLETED PROJECT
- MEDIAN HOUSEHOLD INCOME: \$49,104
14.30%
- MEDIAN HOUSEHOLD INCOME: \$86,318
4.02%
- MEDIAN HOUSEHOLD INCOME: \$55,656
12.61%
- REDEVELOPMENT LOT (TINY LOT)

Tasks:

- Develop and conduct an outreach plan to solicit information about unknown problem areas.
- Investigate problem areas.
- Identify cause(s) of stormwater problems.
- Identify solution(s) to a minimum of six (6) problems areas.
- Assess stormwater impacts from redevelopment – “tiny” lots.

Report - collaboration tool, used to prioritize SW CIP needs.

Timeline: October 2020 - November 2021
