## Invitation to Bid

ADVERTISED DATE: JANUARY 5, 2012

Invitation to Bid (ITB) Title: Valves, Regulators, Actuators and Pumps

ITB Number: 1012-12-JDH

Due Date: January 26, 2012- 2:00 p.m.

Buyer: Janet Harjo, janet.harjo@kingcounty.gov, 206-263-9286

Alternate Buyer: Gina Keolker, gina.keolker@kingcounty.gov, 206-263-9387

Furnish valves and related items as requested by King County personnel in accordance with the attached instructions, requirements and specifications.

**NO PRE-BID CONFERENCE**

Sealed Bids are hereby solicited and will only be received by:  
King County Procurement Services Section  
Chinook Building, 3rd Floor  
401 Fifth Avenue  
Seattle, WA 98104  
Office Hours: 8:00 a.m. – 5:00 p.m.  
Monday - Friday

**BIDDERS SHALL COMPLETE AND SIGN THE FORM BELOW.**

We acknowledge that all Addenda have been examined as part of the Contract documents. The submittal is signed by an authorized representative of the Bidder accepting all terms and conditions contained in the bid and any addenda. We acknowledge that attaching our terms and conditions or modifying the ITB terms and conditions may result in our bid being rejected.

#### NOTES:

1. The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 20042110001).
2. Items indicated as Yes in the Stock Column are available from stock.
3. Level Switch column indicates built-in component.
4. Piggy-back type external level switches is a wide angle mechanical switch with 50' of cable rated for 15 amps at 115 Volt and 230 Volt, 1 phase.
5. Ready 4 and 8 are only available in single phase, plug in version.
6. All pumps includes 50' cable with molded plug.

#### NOTES:

- Impeller version designates the hydraulic performance characteristics of the pump.  
LT = High volume with flatter curves (lower head and higher capacity)  
MT = Standard with medium performance curves  
HT = High head with steeper curves (higher head and lower capacity)
- Model name BS2610.180 indicates the type of pump impeller, Model and version.  
1st digit = B is a closed impeller with strainer and adjustable lower wear plate.  
1st digit = K is an open impeller.  
2nd digit = S is a portable pump.  
3rd-6th digit = Model number  
7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 26101710022).
- The Item Code for manual control panel is the part number shown (example: 149100000654).
- Automatic Control Panel includes ENM10 Floats.
- This is a magnetic starter based control. Circuit breaker or disconnect are not included.
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Item Codes that are ***bold, italic and underlined*** are available from US stock.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.

#### NOTES:

- Impeller version designates the hydraulic performance characteristics of the pump.  
LT = High volume with flatter curves (lower head and higher capacity)  
MT = Standard with medium performance curves  
HT = High head with steeper curves (higher head and lower capacity)
- Model name DS2610.280 indicates the type of pump impeller, Model and version.  
1st digit = D is a vortex type (recessed) impeller.  
2nd digit = S is a portable pump.  
3rd-6th digit = Model number  
7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 26101710022).
- The Item Code for manual control panel is the part number shown without the dashes (example: 5930425).
- Automatic Control Panel includes ENM10 Floats.
- This is a magnetic starter based control. Circuit breaker or disconnect are not included.
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.

#### NOTES:

- Impeller version designates the hydraulic performance characteristics of the pump.  
MT = Standard with medium performance curves  
HT = High head with steeper curves (higher head and lower capacity)
- Model name DS2620.581 indicates the type of pump impeller, Model and version.  
1st digit = B is a closed impeller with strainer and adjustable lower wear plate.  
1st digit = K is an open impeller.  
1st digit = D is a vortex type (recessed) impeller.  
2nd digit = S is a portable pump.  
3rd-6th digit = Model number  
7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 2620581xxxx).
- The Item Code for manual control panel is the part number shown (example: 149100000775).
- Automatic Control Panels include floats.
- Package Item Codes include pump, 50 feet of cable and Manual Control Panel.
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Item Codes that are ***bold, italic and underlined*** are available from US stock.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.

**NOTES:**

- Impeller version designates the hydraulic performance characteristics of the pump.  
MT = Standard with medium performance curves  
HT = High head with steeper curves (higher head and lower capacity)
- Model name BS2610.180 indicates the type of pump impeller, Model and version.  
1st digit = B is a closed impeller with strainer and adjustable lower wear plate.  
1st digit = K is an open impeller.  
2nd digit = S is a portable pump.  
3rd-6th digit = Model number  
7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 26101710022).
- The Item Code for manual control panel is the part number shown (example: 149100000773).
- Automatic Control Panels include floats.
- Package Item Codes include pump, 50 feet of cable and Manual Control Panel.
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Item Codes that are ***bold, italic and underlined*** are available from US stock.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.

#### NOTES:

- Impeller version designates the hydraulic performance characteristics of the pump.  
LT = High volume with flatter curves (lower head and higher capacity)  
MT = Standard with medium performance curves  
HT = High head with steeper curves (higher head and lower capacity)  
ST or SH = Super high head performance curve
- Model name BS3068.250 indicates the type of pump impeller, Model and version.  
1st digit = B is a closed impeller with strainer and adjustable lower wear plate.  
1st digit = D is a vortex type (recessed) impeller.  
2nd digit = S is a portable pump.  
3rd-6th digit = Model number  
7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 26101710022).
- The Item Code for manual control panel is the part number shown (example: 5542105).
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.

**NOTES:**

- Impeller version designates the hydraulic performance characteristics of the pump.  
 LT = High volume with flatter curves (lower head and higher capacity)  
 MT = Standard with medium performance curves  
 HT = High head with steeper curves (higher head and lower capacity)  
 ST or SH = Super high head performance curve
- Model name BS3080.311 indicates the type of pump impeller, Model and version.  
 1st digit = D is a vortex type (recessed) impeller.  
 1st digit = H is a heavy duty hardened steel impeller  
 2nd digit = S is a portable pump.  
 3rd-6th digit = Model number  
 7th-9th digit = Current Version
- The Item Code is 11-digit model number, version and 4 digit code without punctuation (example: 26101710022).
- The Item Code for manual control panel is the part number shown (example: 5542107).
- All pumps supplied with 50 feet of cable as standard. Contact factory for additional cable length.
- Longer lead-times may be required for non-stock items.
- Consult Factory for Product Item Code when not listed above.
