

# Carbon crediting and emerging markets in the organics industry: Can your business benefit?

Washington Organic Recycling Council Annual Conference  
December 5-6, 2007  
Hilton Vancouver Washington

The WORC 2007 annual conference is focused on climate change and will feature information and presentations on carbon crediting, emerging technologies and markets.

This will be your chance to find out what's going on in the Pacific Northwest and beyond with climate change initiatives and how you can benefit in specific markets.

- ♦ Find out what carbon crediting can do for the organics recycling and anaerobic digestion community – can you sell carbon credits?
- ♦ Hear about emerging market opportunities, such as biofuels and anaerobic digestion.
- ♦ Connect with carbon credit entities.

### *Membership Dinner, Awards Program and Keynote Presentation*

Our event this year includes a membership dinner program the evening before with a speaker and presentation of awards followed by a social gathering.

**Early registration deadline: 11/21**  
**Room block deadline: 11/9**

### *Presenters:*

Scott Subler, Environmental Credit Corp
