# Rain Barrel, Compost, and Worm Bin Sale

**Saturday - September 19, 2015 - at 9 am**

All items \$20 each. **Cash only.** While supplies last. No pre or post event sales.

To encourage the use of recycled content material and more efficient use of water, Algona and Pacific are offering recycled plastic **rain barrels** at a huge discount. In addition, start backyard composting with a **compost bin** to save resources and money. Composting is a natural process that turns yard waste into rich soil. Yard waste contains mostly water. Once the material decomposes, rich soil is all that's left.

**Worm bin** composting is an efficient way to convert kitchen scraps into nutrient-rich compost for your garden. Simple to assemble and can be stored in or outside. Made in the US and constructed from high quality recycled plastic.
